# GOCCE DI LUNA

design by Arbet Design

Vetro trasparente - Nickel nero lucido
*Clear glass - Polished black nickel*

La collezione Gocce di Luna cattura la fluidità del vetro soffiato, che si espande in modo controllato all'interno di una gabbia metallica, creando pezzi unici. La luce esalta il vetro con texture "boegoso" o "balloton", diffondendosi nello spazio con morbide vibrazioni. Ogni elemento della collezione offre flessibilità di aggregazione, variando in dimensioni, finiture e colori, e trasformandosi in una fonte di luce dal forte carattere decorativo ed emozionale.

*The Gocce di Luna collection captures the fluidity of blown glass, which expands in a controlled way inside a metal cage, creating unique pieces. The light emphasizes the glass with a "boegoso" or "balloton" texture, spreading in the space with soft vibrations. Each element of the collection offers flexibility of aggregation, varying in size, finishes and color, this way transforming into a source of light with a strong decorative and emotional character.*

GOCCE DI LUNA ART. 218/S
